SOW BARR'S GRASS SEED EARLY FOR BETTER LAWNS

Barr's Lawn Seed Mixtures have been designed primarily for the purpose of providing a lawn mantle that is at once permanent and quick starting. They are guaranteed to be entirely free of Fall or Crab Grass seed. Recleaning by modern machinery makes Barr's Lawn Mixtures noted for having under one-half of one per cent of non-noxious weed seeds. Freedom from chaff makes these mixtures go twice as far in seeding and provides a turf you will be proud of. They test especially high in germination, too. This provides a thick stand from the beginning which is essential to assist in holding weeds in check.

The earlier you can sow grass seed in the spring the better. One pound of grass seed will sow 150 square feet of lawn. After seeding keep the ground continually moist until the grass appears. After grass has started, water heavily at intervals during dry periods.

BARR'S *"Sunnyside"* Lawn Seed Mixture

This is a combination of the most desirable permanent grasses; dwarf, close-growing, fine-leaved, good color, lasting qualities. As the chief ingredient of a good lawn is superfine Kentucky Blue Grass there is a large proportion of this ideal grass in this mixture. No Timothy nor Rye nor coarse-bladed annual grasses are used to cheapen this mixture. It will germinate quickly and provide a neat, permanent lawn. Besides the Kentucky Blue Grass the other varieties included are fine-leaved perennial grasses and some Chewing's Fescue, a higher-priced grass that holds weeds in check much better than other varieties.

Lb. 55c; 5 lbs. $2.65; 10 lbs. $5.00; 15 lbs. $7.25; 25 lbs. $11.75; 100 lbs. $45.00; prepaid.

BARR'S *"Green Mantle"* Lawn Seed Mixture

This is a splendid mixture of good grasses for average conditions of soil and sunshine. It has a large proportion of Kentucky Blue Grass (approximately 45 per cent) and other grasses for a good quick effect. Compare this with analysis on other brands, and you will see what a great value you are receiving in Barr's "Green Mantle" Lawn Seed Mixture.

Will give the lawn an enduring velvety, deep green mantle, with freedom from weeds, as it is very free from weed seeds.

Lb. 35c; 5 lbs. $1.50; 10 lbs. $2.90; 15 lbs. $4.25; 25 lbs. $7.00; 100 lbs. $27.00; prepaid.

BARR'S *"Shady Side"* Lawn Seed Mixture

Composed of shade-loving permanent varieties of fine-leaved grasses—no Timothy nor Ryegrass. Included are fine-leaved perennial grasses and varieties of grasses, including *Poa trivialis*, which have proved best adapted for situations of a difficult nature due to shade.

Feed lawns under trees heavily three times a year—spring, early summer and fall. Failure under trees is due more to competition of tree roots than shade, and plenty of feed gives both grass and trees a chance to exist.

Lb. 60c; 5 lbs. $2.85; 10 lbs. $5.50; 15 lbs. $8.00; 25 lbs. $13.00; 100 lbs. $50.00; prepaid.
